

Essance Skincare

Plant wisdom from our family to your shelf.

Essance is a women-owned and minority-owned skincare company in Portland, Oregon. We make plant-based, vegan skincare by hand, in small batches. We have since 2011. This kit has our story, our numbers, and everything you need to write about us or stock our line.

OUR STORY

From family plant rituals to a Portland skincare house

Founded by Jasmine Tran in 2011.

Essance started with plant wisdom passed down through Jasmine Tran's family. Long before "clean beauty" was a trend, her family used plants and oils to care for skin. Jasmine turned that knowledge into a company with one simple rule: what goes on your skin should be as honest as what goes in your body.

We make every formula ourselves in Portland, in small batches. Nothing is outsourced. The result is skincare that works, feels gentle, and never lets you down.

Today Essance has 80 products in 14 collections. There is the best-selling Dragon's Blood line, the new Multi-Fruit Peptide and Collagen line, a full men's system, and much more. Every product starts with plants.

Essance is proudly women-owned and minority-owned. Every formula is plant-based, vegan, and cruelty-free.

I created Essance to share generations of plant-care wisdom through elevated formulas made for daily ritual.

JASMINE TRAN, FOUNDER

Plants First, Always

Real botanicals like aloe, jojoba, and dragon's blood resin. No fillers.

Made by Hand

Small batches made in our Portland shop. Fresh, every time.

A Ritual You Keep

Skincare that turns a daily chore into a moment you enjoy.
